International visitors:

Among others...

Lorenzo Ortego
VOLTWAY CEO

"The level of the conferences has been quite good, people of high level and from all over the world, in the future I expect much success from this event, I hope Latin America joins the Electric Mobility".

Cristina Lara
AIR MOBILITY CEO

"It has been wonderful" "The media coverage of the event was key to being able to show technological innovation to all visitors looking to invest in Latin America's future in mobility."

HORACIO RAMOS

REGIONAL HEAD OF eMOBILITY EN SIEMENS MÉXICO, CENTROAMÉRICA Y EL CARIBE

"Americas' Mobility of the Future has been a huge project of which +1,000 visitors and exhibitors were satisfied with the quality of business that was achieved by large companies, we look forward to the next edition where we know we will bring many more innovations".

JOSÉ VILLAGOMEZ

CEO
Electric Vehicles & Hybrids

Visitante

"This event was of great magnitude, I was able to meet both national and international companies to talk about this project that we are doing in Electric Vehicles & Hybrids, converting fuel cars to electric cars".

ALEX FOESSEL

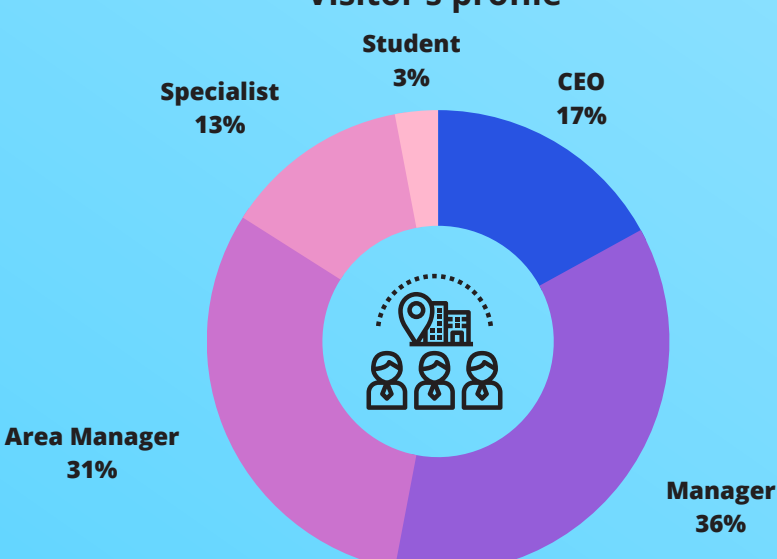

Managing Partner
Balanced Engineering LLC

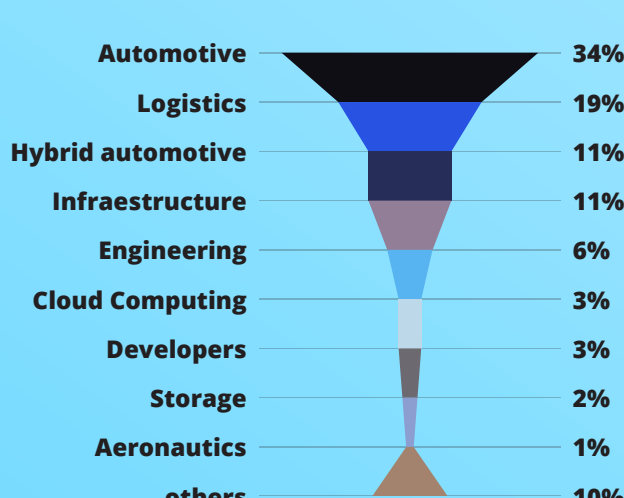

Visitante

Mexico is the base of high engineering for the manufacture and development of software, functional safety and more sophisticated and safer equipment. AMOF is the place to be to do good business. I will definitely be back next year.
